SKILLS

Programming
C, C++, Java, Python

Backend
PHP, Laravel

Frontend
React, JavaScript, HTML / CSS

Database
MySQL, phpMyAdmin

Tools
Git, VS Code, Postman

Md. Nayeem-Ur-Rahman Fardin

Software Engineering Student

SUMMARY

Software Engineering student at Daffodil International University, building complete web applications with Laravel, React and MySQL: clean data models, solid back ends, and interfaces that feel simple to use.

EDUCATION

B.Sc. in Software Engineering Ongoing

Daffodil International University

PROJECTS

Number Guessing Game **HTML, CSS, JavaScript**

A small browser game where the player has 5 attempts to find a secret number between 1 and 100. It gives a too high or too low hint after each guess, checks that the input is valid, shows the attempts left, and lets the player start a new game.
